VILLA'S ARMY IS FALLING APART

By Telegraph to The Freeman.
Washington, Sept. 16.—American and foreign interests in northern Mexico, the richest part of the republic are today in grave danger. The disintegration of Villa's army is believed by the state department representatives in that section to be impending. The inevitable result, they have warned Secretary Lansing, must be brigandage on a large scale. And they say that even though Obregon should gain control of the states fronting on the borders of the United States, it will be some time before he can give the sort of protection that the United States demands.

Meanwhile, the representatives of Villa in this city are protesting openly the action of the state department in withdrawing all consular representatives and Americans generally from Villa territory. They claim that it is tantamount to admitting the impending recognition of Carranza, despite the fact that he declined to participate in the peace conference called by the South American envoys and the United States. And at the Villista junta today it was declared that when this news reaches the Villa forces, there is certain to be bitter resentment that may result in some of the more rabid anti-American leaders deserting and attempting reprisals.

Officials made no effort to conceal their apprehensive over the outlook. It is admitted that if Obregon crushes Villa in the impending battle for the possession of Torreón he will be able to sweep right through to the border. But it also is pointed out that Villa has not less than 30,000 trained and well armed men who can scatter and do enormous damage by carrying on general brigandage and looting and murder almost at will.

To prevent this will be the great problem that will confront the Latin-American envoys and Secretary Lansing when they reassemble in New York city next Saturday. And unless some real plan is offered whereby foreign interests can be assured of adequate protection there is sure to come distinct opposition in the conference to immediate recognition of Carranza's claims as the dominant factor in Mexican affairs and treating with him on that basis.

It is understood that the conferees will discuss whether it will not be possible to reconcile Villa and Carranza to such an extent that they will agree to a truce and that the entire Mexican question. It is known that two of the Latin-American envoys believe that this would be possible if Carranza were permitted to have the lion's share in the distribution of the offices under the new provisional government, and there is an outside chance that some such plan may be adopted before the conference finishes its work.

SLIGHTLY COOLER WEATHER TODAY

By Telegraph to The Freeman.
Washington, Sept. 16.—Slightly lower temperatures prevailed today throughout the east, which brought a small measure of relief to the sweltering millions, according to reports at the United States weather bureau. But there will be no decided break in the hot wave for thirty-six hours at least. Chief Forecaster Bowie said, although showers in the North Atlantic states will bring cooling breezes there tonight and tomorrow. The Ohio valley and lake region reported lower temperatures today, and there was a bit of a drop of the mercury in the Middle Atlantic states and New York.

Boston was the hottest point in the east, reporting a temperature of 80 degrees at 8 o'clock. Washington was next with 74. New York had 72 degrees. Dr. Bowie said these figures would be exceeded later in the day, but the high point would not reach by possibly several degrees that of yesterday.

STORM SWEEPS MOHAWK VALLEY

By Telegraph to The Freeman.
Utica, N. Y., Sept. 16.—A great storm that swept the Mohawk valley last night destroying many barns and other farm buildings wrecking the J. M. Young chair factory at Camden, prostrating trees, poles and wires and causing severe flood conditions failed to break the heat wave that has kept the temperature around the 95 mark in this section several days.

Every community in the Mohawk valley caught the force of last night's storm. The downpour of rain lasted an hour and a half and was a veritable cloud-burst. Lightning started many fires in this neighborhood, causing thousands of dollars damage in hay and live stock. While towns and cities were plunged in darkness. The temperature at 10 o'clock today was 95 and rising.

RUSSIANS ROUT TEUTON FORCES

By Telegraph to The Freeman.
Petrograd, Sept. 16.—The Austro-German defeat south of the Pripiet marshes and in eastern Galicia is described by Russian military experts as a complete rout.

All the way from the Pripiet marshes east of Brest Litovsk to the Dniester river, in Galicia, the Russians are hammering at the right wing of the German and Austro-Hungarian forces, and at some points the Teutonic troops are in precipitate retreat.

Terrific assaults are being launched by the Russians against the northern and southern flanks of the Teutonic right wing Austro-Hungarian troops that advanced east of Kovl are falling back before the pounding of the Russian cavalry. A number of villages have been taken by the Slav forces.

Northeast of Dubno strong positions held by the Austro-German forces have been taken at the point of the bayonet.

West and southwest of Tarnopol, Galicia, the Teutons have been hurled across the Strypa river.

Further south in the region southwest of Trembowla the Russians have crossed the Strypa, and are pursuing the Germans and Austro-Hungarian armies, inflicting enormous losses.

Operations in central and northern Poland were regarded as of secondary importance in view of the successful achievements of the Russians over the 220 mile front south of the Pripiet marshes.

As a result of the Russian advance in Galicia, the Red Cross station at Kiev has been moved to Makarow, thirty miles west of Kiev.

GERMAN SITUATION REMAINS QUIET

By Telegraph to The Freeman.
Washington, Sept. 16.—Unless something unforeseen should develop, there will be no further action to settle the German situation until the Berlin foreign office passes on the evidence now before it dealing with the Arabic as compiled by Ambassador Page in London. This government has rested its case with the submission of this evidence, which President Wilson considers conclusive as disproving the German submarine commander's contention that he torpedoed the liner to escape being rammed, and will wait until Germany decides whether it can now formally disavow the act.

And in the meanwhile the state department will withhold this evidence from publication.

Secretary Lansing will leave Washington tomorrow to be gone ten days. Meanwhile the routine work of the state department will be handled by Counselor Polk, but it was stated today that if any unexpected developments should make the return of the secretary imperative he has arranged to be notified at once.

Officials generally believe that there will be some long drawn out negotiations between Ambassador Gerard and the Berlin foreign office before the next step is taken. Count Von Bernstorff has communicated to Berlin the views of this government as he interprets them from his conference with Secretary Lansing. Ambassador Gerard has had the same ground covered for him in a series of communications from the state department. In this manner every facility for reaching a common ground of understanding has been afforded by the administration and nothing further can come until Berlin finally decides on its next step.

AMERICAN APOLOGY. Civilians on Border Too Quick With Their Guns.

By Telegraph to The Freeman.
Brownsville, Texas, Sept. 16.—American military authorities are expected to anticipate action by General Nafarete, the Carranza commander at Matamoros, and apologize because four Americans fired into the Mexican town Tuesday night.

The incident may result in the disarming of American civilians on the border to prevent similar occurrences. According to the soldiers, the men who fired into Matamoros were deputy sheriffs Monahan, Haley, Silva and Policeman Norton.

The American officers here regret the occurrence as it had been agreed by General Nafarete that his men would not fire upon American soldiers provided United States citizens were restrained from aggression.

Wilson to Vote.
By Telegraph to The Freeman.
Washington, Sept. 16.—President Wilson is going "home" to Princeton, N. J., September 28 to vote in the New Jersey primaries. It was announced today at the White House. He also will go to Princeton October 19 to vote in that election. It has been reported that the president will make known his position on women suffrage after the New Jersey primaries. No confirmation of this could be obtained at the White House.

BRITISH LOSSES 79,238 IN TURKEY

By Telegraph to The Freeman.
London, Sept. 16.—Official announcement was made in the house of commons this afternoon that the British losses at the Dardanelles total 79,238 officers and men. These figures cover only killed and wounded.

The casualties in the operations against the Turks are divided as follows by Under Secretary of War Tennant:

Killed or died of wounds: Officers—1,130; men—16,178. Wounded, officers—2,371; men—59,259.

LONE BANDIT SECURES \$2,500

By Telegraph to The Freeman.
Noblesville, Ind., Sept. 16.—Every police department and private detective agency in central Indiana today was engaged in the hunt for the lone bandit who last night held up the express messenger on a Lake Erie and Western passenger train eight miles north of here and escaped with \$2,500 in cash and several packages containing jewelry.

The masked man entered the baggage car as the train pulled out of Arcadia and covering Ralph A. Williams, the messenger, with his revolver, ordered him to continue reading his newspaper. The explosion of one stick of dynamite opened the safe and the robber, after rifling it, pulled the bell-cord, stopped the train and jumped into a waiting automobile.

The robbery required five minutes time and none of the passengers was aware of what had happened, until the train reached here.

CHICAGO PACKERS' CARGOES CONDEMNED

By Telegraph to The Freeman.
London, Sept. 16.—All the cargoes seized on neutral merchant ships and valued at many millions of dollars were confiscated to the crown by the British prize court today, except a certain proportion which were released to neutral claimants.

The only cargoes released were those owned by shippers who proved conclusively to the prize court that the consignees were neutrals and that the goods would not fall into the hands of enemies of England.

The real destination of the goods seized, the judges of the prize court announced, was Germany and they were intended for use by German military naval forces.

The ships involved in today's decision were the Norwegian steamers Kim, Alfred Nobel and Bjornstjerne Bjornson and the Swedish steamer Friedland.

President Samuel Evans, who announced the decision allowed one claim for a quantity of rubber, holding that the shipment was bonafide, but disallowed other claims. President Evans went into the classification of the cargoes, holding that the gum did not answer the true commercial description of rubber. The word gum, he said, had been used in the ship's manifest to avoid the inconvenience and difficulty that would naturally follow capture.

"Neutrals are expected to conduct a neutral trade without any false papers and belligerents are entitled to a frank course of conduct from neutrals," declared the president of the court.

American meat cargoes affected by today's decision were valued at \$15,000,000. Practically all the meat cargoes seized had been shipped by companies in the United States and with the exception of a few items, President Evans held that all were ultimately designed for use by the German army and navy. The shipments were consigned through Denmark.

In fixing security for the costs, President Evans held that it should be divided among the applicants.

Counsel for the crown was also given the right to appeal in the matter of claims allowed.

In all sixteen claims were disallowed. Eight were allowed.

Washington, Sept. 16.—That the Chicago packers will appeal from the decision of the British prize court whereby huge cargoes of meat stuffs were confiscated by the crown was the general opinion here this afternoon.

Officials of the state department declared that the cases so far have been handled directly between the packers and trade agents of the British government. The state department has been consulted regarding the cases by attorneys of the packers.

It was not thought likely that the matter would result in any protests by this government, though officials were uncertain as to just what action they may follow.

Good Idea for Currycomb.
An inventor's currycomb consists of flexible loops of corrugated metal through which dirt passes quickly.

NAON TO RUN FOR PRESIDENT IN ARGENTINE.
(Romulo S. Naon and his son.)
Washington, Sept. 16.—Dr. Romulo S. Naon, the ambassador from the Argentine, has delayed his sailing for home scheduled for September 15 to September 21, to attend Lansing's conference. It is said that Naon will run for the presidency of the Argentine at the next election.

REVOLUTIONARY PLOT IN BRAZIL

By Telegraph to The Freeman.
Rio Janeiro, Sept. 16.—A revolutionary plot aiming at the overthrow of the Brazilian government and the establishment of a military dictatorship has been discovered here. Many army officers are believed to be involved.

The house at which the conspirators have been meeting was raided last night and several plotters arrested. Among those captured were General Pantaleon Otello and General Troquin Ignacio, both avowed enemies of the present government, and Colonel Albuquerque.

The police announced today that some of the arrested men had confessed and given the names of their conspirators. Search for these is now being made. A quantity of arms and ammunition has been seized.

The government issued a manifesto today expressing its confidence in the army and navy and belief that constitutional authority would be upheld.

Montana Woman Justice Here.

Mrs. John C. Duff, the first woman justice of the peace in Montana, arrived in Kingston Monday to assist in the suffrage campaign work in Greene and Ulster counties. Mrs. Duff played an active part in winning for the women of Montana the right of the ballot, and has come to the empire state very optimistic believing the eastern women will find the men of this state just as generous as the western men. Mrs. Duff was appointed justice of the peace by a board of county commissioners composed entirely of men, and already has made quite a name for herself as a fair and impartial judge.

She also has the distinction of being the first woman magistrate to perform a marriage in the state of Montana, and the first couple traveled three hundred and fifty miles to have her perform the ceremony. Mrs. Duff was granted a leave of absence of sixty days, so she could accept the invitation of Mrs. Carrie Chapman Catt to help the empire campaign committee in stumping the state.

Vacation Experiences.
The story of a vacation Sunday will be the subject at the mid week service at the Rondout Presbyterian Church at 7:45 this evening. Each one in attendance will be given an opportunity of telling of his or her interesting experience upon some Sunday during the vacation period.

CRISIS NEAR IN THE BALKANS

By Telegraph to The Freeman.
London, Sept. 16.—All indications point to an immediate crisis in the Balkans. Closely observers of the near east situation predicted today that the questions that have kept Europe guessing for many months will be answered within forty-eight hours.

A dispatch from Athens to the Morning Post says it has been learned on unimpeachable authority that the Turco-Bulgarian agreement was signed and sealed last Friday night.

Rome advises state that the Bulgarian foreign minister has instructed Bulgaria's representatives at Bucharest and Athens to demand an explanation for the concentration of Roumanian and Greek troops on the Bulgarian frontiers.

According to a dispatch from Sofia, sent on Tuesday, ministers of the entente powers presented a new note to the Bulgarian government regarding Servia's position as to the Bulgars' demand for Macedonian territory.

TROOPS IN JUAREZ GARRISON DISARMED

By Telegraph to The Freeman.
El Paso, Texas, Sept. 16.—All troops of the Villa garrison at Juarez were disarmed last night by their officers and a squad of picked men. The arms were taken to headquarters, where they are being closely guarded today.

Fears that the garrison would declare for General Carranza is believed here to have been the cause of the disarmament, but the official explanation given at Villa headquarters was that the arms were taken away to prevent the men from wasting their cartridges by firing them off in celebration of the Mexican independence day.

All the saions in Juarez were also closed. Despite this the independence celebration during the night was noisy. Several thousand El Paso Mexicans crossed the Rio Grande to participate.

DAY'S WAR NEWS AT A GLANCE

Petrograd—Austro-Germans advancing along Kovel-Sumy railroad being driven back 50 miles by Russians, Teutons suffering heavy losses.

Berlin—German left flank and center making further advances against Russians, breaking through Russian positions in region of Pinsk. Russians driven eastward across Duna river.

Paris—Germans resumed bombardment of Arras. Violent artillery duel in progress. German dispatches report large Italian expedition landing north side of gulf of Saros, aid allies against Turks on Gallipoli.

Turin—Reported Italian submarine sunk two Austrian torpedo boat destroyers.

London—Announced British losses in Dardanelles total 79,238 officers and men.

HAS ENGLAND BEEN PLAYING FAVORITES

By Telegraph to The Freeman.
Washington, Sept. 16.—The state department is investigating charges that certain interests are receiving favorable consideration at the hands of the British government and are enabled to get goods of German origin out of Holland by means of private agreements, while that privilege is being denied to importers who have placed their cases in the hands of Judge Fleming, the department's trade adviser. Because the direct charge has been made by certain importers that their rivals have been able to get permits direct from the British admiralty through a representative now in London, Consul-General Skinner has been directed to investigate. If the allegation proves true, a vigorous protest will be made.

On September 9 the state department was informed that hereafter all permits would be issued only after they had been approved by Judge Fleming and Sir Richard Crawford, the British trade representative here.

Since then not a single consignment of goods has been passed in that way, although advices from Rotterdam indicate that shipments to firms whose importations have not been interfered with to any extent at any time are continuing.

Judge Fleming today refused to comment on the situation. He admitted that formal complaints are being investigated by Consul General Skinner, but declared the matter was entirely in the hands of the London consular offices.

Meanwhile, the general negotiations to expedite the bringing of goods to this country still are held in suspense, and it is understood that France still is withholding permission.

NAVAL BATTLE ON NORTH SEA?

By Telegraph to The Freeman.
Amsterdam, Sept. 16.—A naval battle may have been fought in the North Sea last night, according to information received here today from Maasvluis and the Hook of Holland. Gunfire was heard at 2:30 and within an hour had grown so heavy that windows on the shore were rattling with the detonations. It was kept up for some time, the sound coming from the west of Maasvluis.

Maasvluis is about 45 miles east of the German naval base at Zeebrugge.

Fox Trot—"I Want to Linger."
One step—"Night Time in Dixieland."
One step—"At the Mississippi Cabaret."

Draper Out of Prison.
Clifton C. Draper of Albany, who was convicted on the testimony of two Kingston girls for procuring them to lead immoral lives, was on Wednesday ordered released by the appellate division, and the indictment against him dismissed.

He was tried in December on the charge of inducing Frances Decker and Anna Leffgen of this city to go to a road house near Albany, where he and his friends would visit them. In March, 1914, the girls went to Albany looking for work and fell in with Draper.

Suicide at Niagara.

By Telegraph to The Freeman.
Niagara Falls, Sept. 16.—State reservation authorities believe Hugo Weimer of 497 North Division street, Buffalo, committed suicide by going over the American falls early today. They say that last night he told employees of a Falls cabaret where he was head-patter, that he would go over the cataract. The man's hat and coat were found at Prospect Point this morning.

French Steamer Wrecked.

By Telegraph to The Freeman.
Marseilles, Sept. 16.—The liner Euphrate 6,887 tons, was wrecked in the Mediterranean Wednesday, and will be a total loss. The passengers, about 100 in number, were rescued, together with the members of the crew. The Euphrate was owned by L. Messageries Maritimes, and was built in 1905. Its home port was Marseilles.

Western Roads Ask More Time.

By Telegraph to The Freeman.
Washington, Sept. 16.—Attorneys for all western railroads today filed a petition with the interstate commerce commission, asking that the effective date of its recent decision in the advance rate case be postponed for ninety days. The decision was to have become effective September 30. The railroads want time to prepare an exception to the ruling.

A Servian Bulletin.

By Telegraph to The Freeman.
London, Sept. 16.—The Servian legation today issued the following official war bulletin: "On Friday we interrupted enemy fortification work on the Danube front at Orshava and on the Drina front opposite Visegrad. On Saturday an enemy battery was silenced during an artillery combat in the direction of Belgrade."

An Error Corrected.

Through an unintentional error The Freeman stated that in the action brought by the Solar Light Company against Joseph Hark, a judgment against defendant in the sum of \$74 had been taken in my court on Tuesday. The item should have read that the case had been adjourned to October 13. The amount used for is \$37 instead of \$74.

Fire in Harrisburg.

By Telegraph to The Freeman.
Harrisburg, Pa., Sept. 16.—Fire that started from a defective light in the Palace lunch-room today destroyed the Harnes and Maxwell carriage, together with many automobiles and trucks. Several other small buildings were also burned. The loss will be about \$153,000.

BORROWERS FAIL WITH ROCKEFELLER

By Telegraph to The Freeman.
New York, Sept. 16.—Interest in the efforts of the Anglo-French commission to secure a billion dollars here for the allies was increased today when it became known that an attempt had been made to invoke the aid of the Rockefeller millions.

According to the best authority, J. P. Morgan in person sounded John D. Rockefeller, Jr., active head of the Rockefeller interests, but was compelled to report failure at a night session of the Anglo-French financiers, which did not break up until after midnight.

Belief is expressed in Wall Street circles that the millions controlled by the Rockefeller group will have no part in the vast war loan, if the Anglo-French governments are able to float it.

In addition to reporting upon the present attitude of the Rockefeller interest, Mr. Morgan outlined to the foreign financiers the general attitude of capitalistic and industrial interests throughout the country. It is understood that the foreign commissioners have made it plain that the allied governments will not consider a higher rate than five percent for the interest and a rate of one-half of one percent for marketing.

If the Anglo-French governments are able to establish sufficient credit through other means, a loan of considerable less proportions than \$1,000,000,000 may satisfy.

Among the latest suggestions made in the conferences it is understood, is one that a direct credit of \$250,000,000 be granted to the allies and that another of \$250,000,000 be arranged through a syndicate of bankers.

If the credit is required solely for ordinary commercial requirements as distinguished from the allies' purchases of arms and ammunition, a fund of \$500,000,000 may be all that is necessary to restore the exchange market to its normal state.

Mohr Case Adjudged.

By Telegraph to The Freeman.
Warren, R. I., Sept. 16.—Against the mild protests of counsel for the defendants, the cases of Mrs. Elizabeth Tiffany Blair Mohr and the three negroes charged with the murder of Dr. C. Franklin Mohr on the night of August 31, and the murderous assault on Miss Emily C. Burger, were today continued for three weeks by Judge Frank P. Hammill of the district court here.

UP GOES PRICE OF "BUCKET OF SUDS"

By Telegraph to The Freeman.
New York, Sept. 16.—New York's touch of the horrors of war is almost at hand. Within a few days the ten cent "can" of beer will be a memory, and when the workman sends "Jimmy" around the corner with the growler in the gloaming, he will have to give the lad fifteen cents.
The Retail Liquor Dealers' Association has voted the dime "bucket of suds" out of existence. And it is a direct result of the European war, they say. The war tax of twenty cents a barrel on beer, imposed by the government to make up for the loss in customs duties and other revenue because of the war, amounts to at least \$20 a week in the average saloon, the dealers say. Then the new state law raising the excise tax from \$1,200 to \$1,500 a year, was the last straw.
Three hundred saloons will close their doors on October 1, when the new excise tax goes into effect, say the dealers. And they prophesy that no more will soon follow.
"Something has to be done," said P. J. Keller, president of the dealers' association. Several measures were discussed, and it was finally decided to raise the price of draught beer in the pail.

Meeting of Ulster County Agency
Held Wednesday Afternoon.

At the meeting of the Ulster County Agency for Dependent Children, State Charities Aid Association, held on Wednesday afternoon in the office in the county building on John street it was decided to reorganize the work in the county and to revise the present constitution. It was also decided to hold the monthly meeting in the afternoon on the 15th of each month instead of in the evening as heretofore. This change in the time of the meeting is to allow the members from outside the city who attend a chance to return home the same day.

The work of the association was discussed at length and Admiral Hinson was authorized to appoint a committee to consider the revising of the constitution. The revised constitution will provide that the executive committee of the organization shall consist of a representative from each township in the county, and the committee will meet once each month to carry on the work. It will take some time to appoint this executive committee as only representatives who will take an active interest in the work will be appointed. This executive committee will work in conjunction with Miss Gertrude Bruyn, the county agent, and cases in each township will be reported to the representative who in turn will report the case to Miss Bruyn.

Miss Bruyn gave an interesting report of the work accomplished since she was appointed to fill the vacancy caused by the resignation of Miss Oughltrie. She said that 30 new cases had been reported since the middle of June, and she submitted a calendar of cases that she had prepared. This calendar presents briefly and concisely the cases reported and what had been done in regard to them. By this system an accurate account can be kept of the work accomplished on each case.

Miss Bruyn gave an idea of the work that has been carried on told of several cases that had received attention. A typical case was that of a family in Ellenville. The mother had two small children which she was unable to care for. Through the efforts of the county agent the mother consented that the children be taken from her. One child was placed in the Industrial Home and the other in a private boarding house.

Miss Bruyn has made a number of improvements in the method of handling the work of the office and has installed a fire proof filing cabinet in which all records of cases are kept. The work of the organization is progressing and with the new plans for reorganizing the work considerable good will result.

At the close of the meeting on the motion of Miss Bruyn a vote of thanks were extended to County Superintendent of the Poor Van Orden and to Superintendent Edmonston of the city home for their hearty cooperation with the organization in its work.

FOOT PUB PRAGMATIC.

Tigers and Red Sox Close in American League Contest.

By Telegraph to The Freeman.
Boston, Sept. 16.—The real fight for the American League pennant began here today. With only two games separating them, the Tigers and leading Red Sox played their first game of the series which will practically decide who will represent the league in the world series.

The issue is in doubt. Boston has the advantage in the box. The Red Sox pitchers are twirling in great form and the Hub rooters believed that their boxmen will bring home the bunting. The Tigers, however, more than make up for weakness in the box by their heavy hitting. Ty Cobb and Sam Crawford are slugging the ball as only they can slant it. Four games will be staged between the two clubs. Should the Red Sox win three out of four they will practically clinch the flag. A clean sweep for the Tigers, or even three out of four for the Detroit team will make the fight a close one to the finish.

An even break will leave the clubs in the same position. In this event the chances favor the Red Sox. The Tigers were brimful of confidence when they went in today's fray. The Red Sox were equally as confident.

It's the real crucial series—and the outcome will undoubtedly decide who will play the National League winners.

Federation Asks a Favor.

The Federation of Women's Clubs has asked that The Freeman correct a statement which has been erroneously made regarding the salary which it first paid its present social worker. It has been stated in the press of the city that the Federation at first paid a salary of \$75 a month to the social worker, making an annual salary of \$900 a year which is the amount which the Bureau of Social Service expects to pay their secretary. When first Mrs. Mac Millan was employed as social worker by the Federation she was paid \$60 a month and \$5 for car fare. This continued until last spring, when in recognition of the extra work done by her the Federation raised her salary to \$75 a month and \$5 car fare. When it was learned that the Federation could no longer afford such an amount, Mrs. Mac Millan accepted a return to the former salary. The Freeman is also asked to state that since the executive meeting of the Federation for the month of September there will not be another regular meeting of this committee until October.

It's a Bad Policy.

The Dutcher family who have resided in the Conklin home on North Main street for the past year have returned to Paltburgh Station to live.

The proposition to raise five thousand dollars for road and water way repairs, was carried by vote at the special election held at Fireman's Hall on Tuesday.

Upon the return of Mr. and Mrs. Melvin Schoonmaker from their wedding trip Tuesday evening they were given a rousing serenade at the home of the bride on Pine street.

Mr. Schoonmaker is a very popular member of the Pioneers, also a valued employee of the Ulster Knife works.

ADMIRAL SIR PERCY SCOTT.

COMMANDING ANTI-AIRCRAFT GUNS DEFENDING LONDON.

London, Sept. 16.—The announcement that Admiral Sir Percy Scott has been appointed to take charge of the whole service of anti-aircraft gun for the defence of London against Zeppelins, has been welcomed by the public.

Admiral Scott is one of the best authorities on heavy ordnance in England and is famous as an inventor. He retired from the navy two years ago with the rank of Rear Admiral. He is noted for his pugnacity and independence. He is one of the men who fought for the construction of dreadnaughts, when Lord Beresford opposed the large ships.

He invented that night signal apparatus now used by the British navy, and an improved type of gun carriage. He was in command of the naval brigade in the famous siege of Ladysmith in the Boer War. He has also seen service in Ashanti, the Congo, China and Egypt.

He was born in 1853 and entered the navy in 1865.

HUGO, Secretary of State.</p> <p>The Good Old Times.</p> <p>At one time in Rome political officers were auctioned off in public to the highest bidder. In ancient Greece there was not considered so much of a disgrace as being caught at it.</p> <p>Our prisons are not ideal, but we have made progress in dealing with crime. There were formerly fourteen offenses in Delaware punishable by hanging. In the early history of Connecticut lynching, "that foule and gross sin" was punishable with five stripes at the whipping post and confinement in stocks; people were imprisoned in awful dungeons for debt. In Rome men were sold into slavery to pay debts; creditors could tear the body of the debtor to pieces, each receiving a piece according to the size of his credit.</p> <p>Today is the best day creation has ever seen: For 2,000 years the Sermon on the Mount, like leaven, has been permeating the hearts of men. At last only that which is good can endure. The fires of time burn out the dross.</p> <p>There is "one faroff divine event, toward which all creation moves." It is perfection—but it is not here.—Leslie's.</p> <p>Setting a Fashion.</p> <p>Some years ago the coral fishers of Torre del Greco, near Naples, were in hard straits. The value of coral had fallen so low that they were no longer able to find purchasers for their harvest. At last in their despair they began to wear coral necklaces and earrings, and to set a fashion which was followed by the queen, to the surprise of all beholders, who about her neck a collar composed of six rows of coral instead of her superb collar of pearls, and her black hair was crowned with a diadem of coral and brilliants. From that evening the mode changed. Old coral ornaments that had been hidden away for years and years were again displayed at the jewelers' and were snapped up by eager purchasers. Queen Helena's object was attained, and that court ball marked the beginning of more prosperous days for the coral fishers of Torre del Greco.</p> <p>The Chinaman's Wardrobe.</p> <p>In "Home Life in China" Isaac Taylor Headland tells the following story to illustrate the conveniences of the Chinese costume:</p> <p>A Chinese government representative who was new to American ways came to the home of an eminent New York banker for a week's visit. It was winter, but he came without luggage, and yet every day he appeared at dinner with a change of garments. At first his hosts wondered how he managed it. But soon he discovered that his body was his trunk and that instead of putting his clothes into his trunk he put his trunk into his clothes. His garments were like the layers of an onion, except that any layer might be worn on the outside, and as some of his gowns—for such they might be called—were of silk, lined with fur, or fur, lined with silk, he could wear them either side out at will.</p> <p>A Rare Bird.</p> <p>The lowest form of bird life which exists is believed to be the kiwi, or Apteryx mantelli, of New Zealand. It is so scarce, however, that scientists consider themselves lucky to get a specimen in any condition. It is without wings or tail; its legs are short, but very strong, and are used for digging. The chief food of the bird is earthworms. The body-covering is a cross between hair and feathers. The kiwi develops great speed and makes a desperate fight when attacked. A peculiar characteristic is that during the day they conceal themselves under rocks or roots of trees and when at rest resemble to some extent a hedgehog when it is curled up. Efforts to breed them in captivity have utterly failed, and only a few museums can boast of specimens.</p> <p>Explained.</p> <p>When he came in late he said to his waiting wife, "See the nice present I brought you."</p> <p>"Where is it?"</p> <p>"Here it is. A point lace handkerchief."</p> <p>"Oh, ain't it beautiful?"</p> <p>"Yes, it cost a dollar, marked down to 99 cents."</p> <p>"My, what a horrible odor!"</p> <p>"Oh, that's the scent off the dollar!"—Exchange.</p> <p>Chesterfield on Dress.</p> <p>"When you are once well dressed for the day," wrote Chesterfield, "think no more of it. Always and without any stiffness or fear of discomposing, that dress let all your actions be as easy and natural as if you had no clothes on at all."</p> <p>An Unkind Retort.</p> <p>"You made a fool of me!" exclaimed the angry husband.</p> <p>"Call yourself a fool if you wish, my dear," calmly rejoined his transgressor, "but remember that you have always claimed to be a self-made man."</p> <p>Honest, Anyhow.</p> <p>"So you are marrying the man of your choice?"</p> <p>"Not exactly the man of my choice; rather the man I could get."—Detroit Free Press.</p>

GERMANS IN RUSSIA.

Important Element in the Population for Many Generations.

By Telegraph to The Freeman. Washington, D. C., Sept. 16.—

"Hundreds of thousands of Germans were living under the scepter of the Tsar when the world-war broke out, the Teutonic subjects of Russia being greater many times in number than the combined German sojourners of all the other allied nations," according to a bulletin just issued by the National Geographic Society.

"Until very recent years, the condition of these German colonists in Russia was that of favored citizens, of citizens specially entrusted with the work of developing the empire. With the strong revival of the Great Russian policy, that of the russification of the whole monster land, however, German schools were suppressed and other measures were adopted toward making the Teutonic citizens good slaves."

The Tsar's German subjects formed a much more important element in Russia than is generally considered. From their ranks were recruited the model artisans and peasant proprietors, while they furnished a significant quota to the ranks of Russia's professional men.

Business men and technical workers. Descendants of the German colonists who were brought into the empire by Catherine the Great, herself a German princess, were prominent lawyers, university teachers, scientists, engineers, army leaders, captains of industry and of commerce, and members of the Russian bureaucracy and diplomatic corps.

For generations these German colonists and their Slav neighbors have gotten along amicably with one another. Their attitude, on both sides, has been one of tolerance and good nature. The German language served as a medium of communication everywhere, whether at Petrograd or Vladivostok, at Archangel or Kherson.

The colonists mostly persisted in the use of their mother tongue, sent their children to German schools; celebrated their religion in Lutheran churches, presided over by old-type German Lutheran pastors, and kept to the customs which they had brought with them from Saxony, from Bavaria and from Westphalia.

German Colonists were divided into four classes. The colonists, the business classes, the intellectuals and the nobility. The German nobility the owners of vast estates, were mostly confined to the Baltic provinces. The history of their services to the land of their adoption forms no unimportant part in Russian annals. On the other hand, Russia has been lavish with her favors to her German citizens. Courland, Livonia and Esthonia were the provincial seats of the powerful Teutonic Russian nobility, old German families with ancestral lines clear through centuries. They have filled the high places in the Russian state honorably and ably, and there has never been any question of their loyalty. Practically all of them were Lutherans.

"The intellectuals—lawyers, doctors, artists, engineers, scientists, architects, pastors, and so on—and the business classes of Germans in Russian dominions formed the Tsar's most important division of Teutonic subjects. In many of the towns, the German intellectuals furnished occupants for all the best posts, while from the ranks of the same people came a preponderating number of the millionaires. Teutonic tradesmen, manufacturers and commercial travelers have been busied in the development of every corner of the empire. Before the war they were to be found in all parts of the land doing a thriving business."

The German colonists were agriculturists. They were first brought into Russia by Catherine the Great, in the hope that they would serve as teachers of better and more scientific farming to their new fellow citizens, and vast grants of land were made to them. One belt of settlement reaches down the Volga valley, from Tver, branching south from the Volga, to Kharkof. Many privileges were given to these settlers, and their colonies rapidly grew rich. Their villages were planted with fruit trees; their farms were operated with Germanic thrift and attention to business, and the more advanced methods of agriculture in use in their old homes were put into practice. Their Slav neighbors, in many cases, profited by example and learned much from Teutonic management. The position of the colonist, however, was better than that of his neighbors. He was never a serf, but a peasant proprietor; and, therefore, he enjoyed a many years' headstart over the Russian peasant. It is these colonists in Central Russia who have been the backbone and the sinner of Russian agriculture."

TURKISH SNIPER AND HIS CAPTOR.

DISGUISED TURKISH SNIPER CAPTURED AT THE DARDANELLES.
This photograph shows a ruse adopted by the Turkish snipers to render themselves invisible to their British and French enemies. In some cases snipers have been captured with the faces painted green, to correspond with the surrounding foliage. This man has almost completely covered himself with foliage. Note that his British captor at the left has cut off his trousers at the knee—a custom among the soldiers on the Gallipoli peninsula, where the weather is almost tropical.

BRITISH CABINET AGAIN IN SESSION

By Telegram to The Freeman.
London, Sept. 16.—Premier Asquith summoned all the ministers of the cabinet into session today before parliament reconvened. The meeting lasted two hours, but Lord Kitchener left before the session ended.

Up to that time that members of parliament met no announcement was made as to the reason for the special cabinet meeting, or the length of its session was forthcoming, but it was rumored in the house of commons that conscription was the chief topic of discussion.

In this connection there was a well-defined impression in London today that Lord Kitchener's speech declaring the German army had about "shot its bolt" had not received the complete endorsement of his colleagues. It is well understood that certain members of the cabinet are bitterly opposed to conscription and dislike any optimistic official utterances that might tend to discourage voluntary enlistment.

room ten feet square is boarded off. In which a constant supply of wheat bran, flaked meal and corn is kept, to which the lambs have access at will. Also some choice clover hay. The lambs enter their room through an opening which is too small to let a ewe pass through.

I am frequently asked what in my opinion is the best breed to use. Any breed is good excepting the little wrinkly Merlinoes. Dorsetts are commonly considered the best because their lambs are blockier and the mothers are docile and good milkers. There is more in the care and management than there is in the breed. A lot of lambs that have done well ought to average forty-five pounds or more when they are sixty days old.

Sheep on the Farm.

The quickest and cheapest manner in which to renovate and restore a worn-out farm is to buy sheep and feed them on it, says the Farm Journal. As fast as one flock is fat sold and buy others at low prices, because they are poor. Learn how to exterminate the worms that infest them and bed them in sheds open at one side. Do not clean out the manure often more than once in three to four months, but use beddings and dry earth liberally and they will keep dry and clean, while the quality of the fertilizer will excel any you ever used. It will contain all the salts of both liquid and solid manures.

Hogs Need Exercise.

A hog is unlike a cow in needing, actual needing, exercise, that digestion may be kept up. A growing pig or breeding animal must have something to do if it is to accomplish the best results. This is one place where pasture comes in. It furnishes exercise.

Crater Lake's Gamy Trout.

Whether it be from the temperature or the quality of the water is not known, but it is the testimony of experienced anglers that, pound for pound, Crater lake trout are harder fighters than trout found elsewhere.

"Around the edges of the lake," said the general superintendent of the park, "there is no foiling to entangle your hook and line, and it is the ideal place for the amateur fisherman. When I was there the lake was so clear that you could see to a depth of forty feet. The first fish I caught I saw take the fly. I saw every motion of his body until I finally landed him on the bank, which I only did with the aid of one of the concessioners in the park. I do not know of any other place in the world where an amateur fisherman can swing his fly in any direction without danger of catching it on some twig and when he hooks his fish watch every motion as he fights for freedom. I agree with Emerson Hough in every word that he has said about fishing in Crater lake."

District of Columbia.

The municipal government of the District of Columbia, including the entire city and adjoining territory, is vested by act of congress in three commissioners, two of whom are appointed by the president from citizens of the district having had three years residence therein immediately preceding their appointment and confirmed by the senate. The other commissioner is detailed by the president of the United States from the corps of engineers of the United States army and must have lineal rank senior to captain or be a captain who has served at least fifteen years in the corps of engineers of the army. The commissioners appoint nearly all the subordinate official service of said government except the board of education, which is appointed by the supreme court of the District of Columbia. There is not an elective officer in the District, and the people living there have no vote in a presidential or other election.

Western India's Food.

Ninety per cent of the population of western India is dependent upon fish for sustenance.

Legends of the Red Rose.
As to the origin of the rose there is a legend that a Jewish maid of Bethsabee, whom Spenser names Zillah, was beloved by one Ham'uil, a British son. Zillah rejected his suit, and Ham'uil vowed vengeance. He gave out that Zillah was a demoniac, and she was condemned to be burned, but God averted the flames, the stake budded, and the maid stood unharmed under a rose tree full of red and white roses, "then first seen on earth since paradise was lost."

From other sources it would appear that the rose was first white, and the Turks say it was colored with the blood of Mohammed and will never suffer the flower to lie on the ground, which is contrary to this, the Greeks hold that it derived its color from the blood of Venus when she trod on a thorn and the white thorn when going to the assistance of the dying Adonis.

Don't Blame the Machines.
Perhaps one reason for motor speeding is that automobiles feel their spine just as a horse does its car.

Fine Asbestos Thread.
Asbestos has been spun into thread so fine that it requires 32,000 feet to weigh a pound.

BATTERY OF HEAVY GUNSON AUSTRIAN WARSHIP.

While most of the ships of the Austrian navy are somewhat out of date compared with the Italian yessels, and unable to cope with modern dreadnaughts, their first line fleet is a formidable unit.

This photograph, taken on board an Austrian battleship of the Togo class, shows a battery of six big Krupp guns in the forward turret.

MENKE'S DAILY SPORTING LETTER

(By Frank G. Menke.)

New York, Sept. 16.—The style of rooting in vogue in golfing tournaments does not make a hit with "Hurry Up" Yost, the Michigan coach.

"I saw the recent tournament in Detroit," said Yost. "Some great plays were made. One player in particular made a wonderful shot. I forgot, for a second that I wasn't on a football field and was about to let loose a wild cheer. But I caught myself just in time to have myself from being assassinated."

"Silent rooting is a new thing to me. And it's a very hard form of rooting for me, too. That's why I'm off golf matches in future. If I see a good play made, I want to voice my approval not think it or show it by a little deeper breathing."

Tip to Fight Managers.

The sporting editor of one of the big New York dailies recently was asked which man had won the Johnny Dundee-Ritchie Mitchell fight that was staged in Milwaukee. "I can't say authoritatively," answered the sporting editor, "because I wasn't at the ringside. However, I am awarding the decision to Dundee."

"How's that?" asked the other. "Well, after the fight was over the managers of both fighters sent me telegrams. Each claimed a victory for his man. I have awarded the decision to Dundee because his manager paid for the telegram he sent—by other manager sent for collect."

A Funny Golfing Yarn.

P. P. Atha, playing on the Blue Hills course in Kansas City, tells this one.

"We were playing a foursome—Dr. Charles W. Moore, Robert F. Lakenbaum, George H. Sombart and myself. I had made a poor drive and had to go into the rough for my approach shot. The other players were well ahead of me. I got a good life and the ball went sailing in the direction of Dr. Moore practically on the green. When I reached the place, I found that the ball had skipped past Dr. Moore's hip and gone into one of his trouser pockets."

"My opponents insisted that I play my lie was from where it was. Dr. Moore objected—and strenuously. I, too. He vowed that he wouldn't let me try jamming him with a nublick and threw out the ball. It rolled onto the green and I went down on the next putt."

Zupke Boosts Gopher Stock.

"Minnesota is the one team that all the conference teams must fear," declares Bob Zupke, coach of the champion Illinois team. "The Gopher team this year will be one of the best ever turned out by Minnesota—or I'm a poor prophet."

More Bleacher Seats in 1916.

The bleacher seats in the new league parks will do a "come-back" next year. Some years ago each park had from 5,000 to 10,000 bleacher seats. Then the magnates decided that some of these seats were too nice for 25-cent spectators, whereupon they divided the bleachers. The parts nearest the home plate were changed to 50-cent seats, and only a few 25-cent seats were left.

However, the 10-cent baseball policy inaugurated by the Feds has forced organized baseball, to appeal to the poorer fans again—and the once-time 25-cent seats that were boosted to 50 cents are pretty sure of becoming 25-cent seats in 1916.

Joe Lannin, owner of the Red Sox, already has made a move in the direction of more cheaper seats. He added 3,000 twenty-five cent seats to his park a few weeks ago, making the total 9,000.

Reunion of Old Twentieth.

Friday the annual reunion of the survivors of the gallant old Twentieth Regiment will be held at the Kingston Hotel on Crown street. This is the fifty-third anniversary of the battle of Antietam in which the regiment took part and it has been the custom of the regiment to hold its annual reunion on that date. The business session will be held at 10 o'clock in the morning when the annual election of officers will be held followed by dinner and camp fire.

Narrow Escape From Drowning.

Proctorian Reaches Quebec.

Quebec, Sept. 16.—The Allan liner Proctorian, with 195 passengers on board, which collided with the steamer Kansas off the mouth of the Saguenay river yesterday, arrived here today. She was only slightly damaged.

R. C. ZUPKE.

New York, Sept. 16.—Can Bob Zupke repeat?

Bob is the party who gathered together an alleged bunch of football dubs at the University of Illinois last year, welded the dubs into one compact body and then hurled it through seven different kinds of opposition to the crest of the western football world.

Not since the western conference was formed many years ago has a college won the undisputed championship two years in succession. But Illinois enthusiasts look for Zupke to smash tradition—to repeat his triumph of 1914 despite the fact that the loss of seven men through graduation has shot to pieces his great 1914 team, wrecking every department.

But Zupke can take some green material and make it look like real veteran lumber when he gets through with it, and barring accidents, he will bring another western championship to the Illinois gridiron, or come mighty near it.

METTACAHONTS.

Mettacahonts, Sept. 16.—Don't forget the date of the girl's G. A. R. Club party, Wednesday evening, September 22, at the school house. Refreshments of all kinds will be for sale, including home made strawberry, chocolate and vanilla ice cream and delicious cake. Come and bring your families and friends and enjoy yourself and also help along the good cause.

Everyone is complaining over the hot weather of the past week.

Elmer B. Hendrickson was home over Sunday from Lake Mohonk.

Roswell Osterhoudt upset with a load of straw during the week. Luckily no one was hurt and after again loading up the straw he continued on toward home without any further incident.

Jewish boarders in this locality have nearly all gone back to their homes in the city.

A man was through here during the week selling peaches for sixty cents a basket. A good number of housewives, bent on having good things to eat for winter, purchased one or more baskets.

Floyd Mackey is employed by Oscar Markle to help with threshing, which is the order of the day around here.

Byron Van Demark has been severely troubled with a boil on his chin.

Herman Gayley of Accord and E. V. Bagley of Kingston were in this place on Tuesday afternoon.

Many from this place attended the clambake at the Rochester Reformed Church on Wednesday evening.

The monthly meeting of the Willing Workers was held at the home of Mrs. Russell M. Miller on Tuesday afternoon, September 13.

The meeting was opened with the hymn, "What a Friend We Have in Jesus." A portion of scripture was read and all repeated the Lord's prayer. Some methods were talked of for trying to bring others into the Sunday school who do not attend. The Sunday school is one of the best meetings we can attend, and all those who do not attend are cordially invited to meet with us each Sunday afternoon for the study of the lesson and for the worship of God. The meeting was closed with two selections on the phonograph, "Only a Beam of Sunshine," "O. Think of the Friends Over There." Afterwards refreshments were served on the lawn and a social hour was spent, and all left for their homes. The next meeting of the Willing Workers will be held at the home of Mrs. Eli Osterhoudt on Tuesday afternoon, October 3, which all are cordially invited to attend.

Mrs. Elias P. Osterhoudt and Mrs. Wilhem H. Miller and daughter, Viola, enjoyed a fine automobile ride one evening last week.

Oscar Markle is doing a rushing business with his threshing machine outfit. He is daily employed by the farmers of this place and vicinity.

Percy Gazley, the R. F. D. carrier, is enjoying his vacation, and substitute, Carl Gazley, is taking his place.

Miss Dora Baker was a Kingston visitor on Thursday.

Mrs. Hannah M. Osterhoudt was employed by Mrs. Eli Osterhoudt on Wednesday.

A pleasant surprise was given Mr. and Mrs. Abie Van Eiten on Tuesday evening, September 7, in honor of the fourteenth anniversary of their marriage. Supper was served and a pleasant evening was spent by all present.

PLUTARCH.

Plutarch, Sept. 16.—On next Sunday the Rev. R. M. Roberts of Esopus will have charge of the communion service. All members of the church are urged to attend this service. Members of other churches and the stranger within our gates are cordially invited to attend this service. If there are any wishing to unite with the church the Rev. W. A. Austin will be glad to receive them.

The Rev. Father J. Hopkins of Gardiner was a caller in this place on Wednesday afternoon last.

Quite a number have been picking cranberries at Michael Boland's this week. There is quite a good crop and the berries are nice.

Mr. and Mrs. Mirza Tobias and Mr. and Mrs. Clifford McCormick attended church at Clintondale Sunday evening.
